

Experience

Design Engineering Intern | Renoverse AI | MAY 2026

Owned an end-to-end website revamp for an AI renovation/home-construction startup, replacing a no-code Squarespace landing page with a hand-built, responsive site — designed Figma mockups and interactive prototypes, translated designs into production HTML using Paper with Claude, established a reusable design system via Google's design.md protocol, and shipped a live site in ~24 hours after re-strategizing to hit the client's end goal; authored a team handoff guide for editing and scaling the site with Claude going forward

Software/AI Engineer | Fractal Tech NYC | FEB 2026 — MAY 2026

Built and shipped 10+ full-stack apps, software tools, and AI research projects with 1,000+ commits and 400+ PRs — created RhinoMCP (an MCP server bridging Rhino 3D and AI agents for computational design), multiplayer games, 3D environments, dungeon crawlers, and AI-powered tools using React, Next.js, TypeScript, Python, Three.js, and WebSockets, with a focus on 3D modeling, architecture-software integration, and Claude Code research

Architectural Intern | Studio KZ + Scottsdale Design Build | MAY 2022 — JUL 2023

Developed drawing sets through the CD & CA phases for both residential & commercial projects, built 3D SketchUp models for client presentations, participated in on-site field & construction work, assisted with contractual review, collaborated on structural calculations and detail design, drafted plans, elevations, sections & details for custom homes

Gallery Educator + Greeter | Wrightwood 659 | APR 2024 — JUL 2024

Engaged & educated visitors on architecture & artworks, developed research & “educator talk” on artist

Gallery Service Assistant | Gallery 1957 | Expo Chicago | APR 2023

Engaged with potential clients, learned artists & their works quickly, promoted & represented artists to the public
